TOLGAHAN AY

GAMEPLAY PROGRAMMING & TECHNICAL GAME DESIGN INTERN

Muğla / Bodrum, Türkiye | +90 534 273 43 00 | tolgahan.ay@outlook.com
Portfolio: togi1.github.io | GitHub: github.com/Togi1

PROFILE

Digital Game Design undergraduate interested in gameplay programming and technical game design. Has worked on Unity 2D and 3D prototypes involving gameplay mechanics, data-driven game content, basic progression systems, and player feedback effects. Also has a background in robotics projects and registered hardware patents, and is looking for an internship to learn from an experienced game team.

TECHNICAL SKILLS

Programming: C# (OOP fundamentals), Python (data structures and algorithms)
Game Development: Unity 2D/3D, gameplay prototyping, input and physics systems, ScriptableObjects
Design: Gameplay mechanics, level design, progression and in-game economy concepts, game feel
Tools: Git/GitHub, Unity Cloud, Jira, Blender, Steamworks
Other: Robotics and hardware integration

SELECTED PROJECTS

PO535-T — Game Design & Team Project

In development

• Prepared a game design document and helped organize a four-person team around a five-phase production roadmap.
• Worked on concepts for diagnostic rule systems, misleading symptoms, and a tactical workbench mechanic inspired by Papers, Please.

2D Pixel Art Fishing Game

Unity · C# · Prototype

• Worked on an inventory and loot system using ScriptableObjects to define fish rarities and attributes.
• Contributed to progression and shop-economy concepts, including equipment upgrades and fishing-related gameplay tension.

3D Mobile Dart Game

Unity · C# · Prototype

• Implemented projectile behaviour and touch input for a mobile dart prototype, along with a vector-based scoring system.
• Added player feedback effects such as camera shake, haptics, and impact particles.

BlackFriday — Team Project

Pipeline & Gameplay Contribution

• Contributed to team workflows using Unity Cloud and Jira, including version-control coordination and Steamworks packaging tasks.

PATENTS & APPLIED PROJECTS

Autonomous Line-Tracking Robotics Platform — TR2022017364U5
Multi-Functional Storage & Peripheral Hardware Unit — TR2022018474A2

EDUCATION & CERTIFICATIONS

Muğla Sıtkı Koçman University — BSc in Digital Game Design · 2025–Present
High School — Graduated as valedictorian
• Foundational C# Certification — Microsoft
• Robotic Coding Specialist — Advanced Embedded Systems
• DiscoverEU Laureate — European Commission mobility programme
Languages: Turkish (Native) · English (B2)
Interests: Gameplay mechanics, systems design, rapid prototyping · Licensed badminton athlete
